I verify believe the original patent to be wholly or partly inoperative or invalid, for the reasons described below. (Check all that apply)

- ☐ by reason of a defective specification or drawing.
☒ by reason of the patentee claiming more or less than he had the right to claim in the patent.
☐ by reason of other errors.

At least one error upon which reissue is based is described as follows: Dependent Claim 11 was improperly limited as to including the language "and an erased state, while said amorphous state is defined as a recorded state," and this language is being eliminated from dependent Claim 11. In addition, typographical errors are corrected in Claims 1, 2, 5, 6, and 8, such correction of typographical errors being permitted under MPEP §1402. These typographical error corrections were needed because of U.S. PTO printing errors as noted in the 37 CFR §1.173(c) statement filed with the application on April 16, 2004.

Every error in the patent which was corrected in the present reissue application, and is not covered by the prior declaration submitted in this application, and is not covered by the prior declaration submitted in this application arose without deceptive intent on the part of the applicant.

I hereby appoint the following attorney(s) and/or agent(s) to prosecute this application and transact all business in the Patent and Trademark Office connected herewith:
